

COMPLIANT PRODUCTS

for Automotive Refinishing

INTRODUCING

QUICK-DRY AIR SYSTEM

AIR DRYER SYSTEM

Dries waterborne coatings quickly and efficiently.

Increases air movement and volume by using compressed air.

Unique stand allows for positioning of air dryer to substrate.

CFM Requirement:

1 Gun – 10 cfm
2 Guns – 12 cfm

Maximum inlet pressure: 100 psi

FEATURES:

- ▼ Quick-Dry
- ▼ Efficient
- ▼ Unique Design

ADVANTAGES:

- ▼ Increased Production
- ▼ Fast Waterborne Dry Time
- ▼ Multiplies Ambient Air Flow Over Substrate

Product Number: QD234 – Two Quick-Dry Guns and Stand
QD134 – Single Quick-Dry Gun (without Stand)

05/07
